Austrians Behind Strong Redoubts Along Isonzo.

Elaborate System of Defenses Guarded by Mines.

ITALIANS WIN AT

Repeated Attacks by Franz Josef's Troops Repulsed.

Cadorna Reports Foe Violates International Conventions.

Rome, June 16 .- An elaborate system of entrenchments has been pre-pared by the Austrians along the Isonzo river, according to an official statement signed by General Cadorna, issued at the war office tonight. At farmers and state, county and municipal officials have been co-operating to the end that the wheat crop of the state may be handled more rapidly and more efficiently than ever before. Nine hundred local correspondents in every locality in the grain belt have been keeping Z. G. Hopkins, in charge of the state free employment bureau, in touch with the needs of their vicinities, including the equipment, number of men, cooks and teams required. The most recent estimates available indicate that Kansas needs 35,000 harvest hands, 1,040 cooks and 3,600 men with teams. Names of the farmers and state of the average American working man's family was \$6.68 higher than in 1907, calculating on relative price figures announced today by the federal bureau of labor statistics. The figures are based on the bureau's most recent investigation of retail prices. These figures represent prices of fifteen articles aggregating approximately two-thirds of expenditure for food by the average workingman's family. The cost of these articles in lattacks on June 13 against the summit of Vellone, in the upper valence working man's family was \$33.90, making the 1913 was \$33.90, making the 1914 cost \$340.58, while in 1907 it was \$280.15.

Repeated Attacks Recoulsed.

\$280.15.
Calculating these amounts to two-thirds of the workingman's family food expenditure, the total spent for food in these years would be:
In 1913, \$500.85; 1914, \$510.87; 1907, \$410.20.
The bureau investigation covered prices in forty-four important industrial cities representing thirty-three states.

Repeated Attacks Repulsed.
"More intense attacks have been made repeatedly by the enemy in Carnia, either near the defiles of Val Sesis, which still is strongly held by us, or especially against the rear line of Mont Avostanis, to the defile of Monte Croce. Here on the morning of June 14, the enemy made a vigor-states. ous attack, preceded by an intense artillery fire which began in the night and became very violent at daybreak.
The enemy was repulsed and pursued at the point of the bayonet.

Sure Way to Kill Rats Worst and Most Expensive Household

Millions of dollars of property are destroyed yearly by rats simply because people do not appreciate the destructive power of rats and do not know how easy it is to kill them. Simply get a two-ounce box of Stearns Electric Paste from your druggist for twenty-five cents and use it at night in accordance with the simple directions, and in the morning there should not be a rat in the house.

the house.

Nothing else is as effective as Stearns Electric Paste in exterminating rats, mice, cockroaches and other vermin. The government uses it in its fight against rats. Directions in fifteen languages in every package.—Adv.
